2023 Street Improvements Project Construction Notice

Project Summary

The City of Elk River has awarded the 2023 Street Improvements Project to North Valley Inc.

This project includes curb and sidewalk repairs, mill & overlay, and full depth reclamation improvements on approximately 17.5 miles of streets in various locations within the City. The overall project layout can be found on the City website at the link listed below. See the back side of this notice for a project location map of your specific development area.

Street Reclamation

You can anticipate the following work flow on the road segments in your area:

- 1) A reclamation machine will grind the existing pavement and blend it with the gravel below. They will then remove enough material to create room for the new bituminous pavement to be placed.
- 2) Two layers of bituminous pavement will then be placed at different times to allow for compaction.
- 3) Topsoil, seed, and mulch will be placed where the existing turf is disturbed.

Project Schedule

Work in your area is anticipated to begin the week of May 8, 2023. Once they begin work on your street, it is anticipated they will complete the work within 4 weeks.

Please note that construction schedules and operations are controlled by the Contractor and are subject to change based on weather and construction progress.

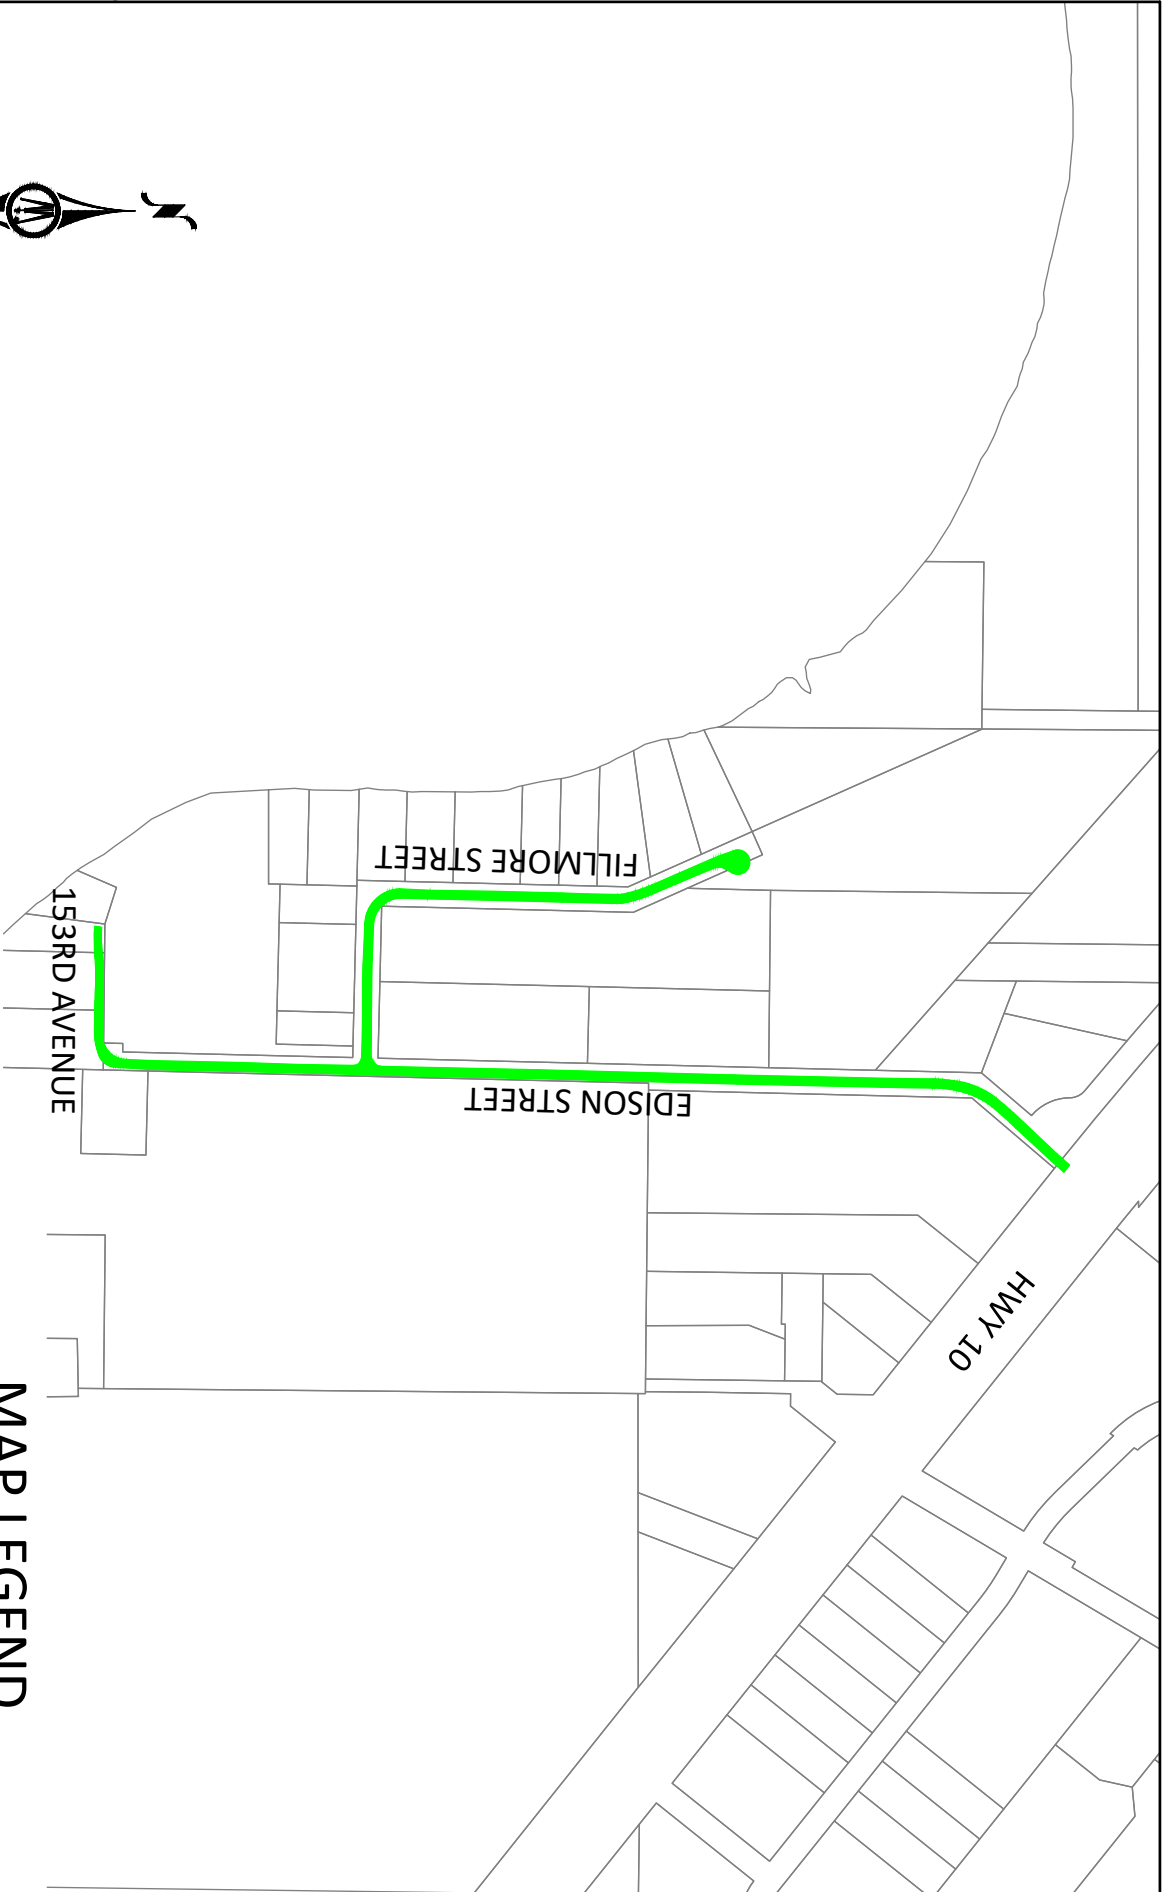

Traffic Impacts

During construction, the roads will be restricted, and minor delays may occur. Two-way traffic is scheduled to be maintained with shifting traffic to single lanes through the construction process. Please be aware of these shifts and follow the traffic control signage and cones. The driving surface will be a gravel surface for portions of the work.

The Contractor will place no parking signs along the project when work is planned. Please do not park on these streets when posted as your vehicle may be towed to enable the project to be completed.

Thank you for your cooperation during this construction project. If you have any questions or concerns during the project, Jason Cook or Jon Nico will be able to assist you at the phone numbers or emails listed.
